 Library Trustees

The Trustees and Librarian thank those people who have kindly donated books to the library. Last year the Freedom Library (at no cost) became a member of the N. H. State Library Development Program. This membership entitles the library to purchase any book through cooperative buying at a

great saving. Also, it gives the benefit of the advice and assistance of trained librarians. The Trustees, as a start on the program of up-dating the library, have laid aside old books for which there is no longer a demand in order to make room for more new books. The old books will still be available, through our catalogue system, to anyone calling for them. With increased space, a larger number of new books may be purchased, or borrowed from the Bookmobile. By the end of the year the trustees hope to have completed the cataloguing and re-arranging of the library, giving special attention to the needs and desires of the Freedom borrowers.

## ANNUAL REPORT OF SCHOOL NURSE

The Health Services for the children in the Freedom School for the school year of 1964-65 included vision testing, hearing testing, weighing and measuring for each pupil, individual health inspections and patch testing for tuberculosis.

Fourteen pupils received dental examinations by a dentist the day they received their medical examinations at Memorial Hospital.

	Number of Defects found	Number of corrections or under treatment
Tonsils	1	1
Lungs	1	Chest X-Ray
Heart Murmur	1	1
Albumin in urine	1	1
Vision	3	3
Hearing	3	3
Teeth	21	16

Nine children in grades one and two participated in the program offered for dental cleanings and application of Topical Fluoride.

With the realization that primary responsibility for the health of children rests with the home it is gratifying to find the child's attitude toward health procedures acceptable as part of growing up. Their regard for 'Their Doctor' as a good friend who tries to keep them well — the enthusiasm they show when they have received boosters for continued protection against Diphtheria, Tetanus, Small Pox, Polio and Measles is a credit to all concerned.

Although dental problems continue to be the outstanding defect found among school children it is en-

couraging to find the number who have had timely dental care. Also the interest in proper nutrition as it effects the child, not only in regards to good teeth but also to optimum health and its relation to the learning process.

I wish to take this opportunity to express my appreciation to everyone who helped to make this program possible.

Respectfully submitted,  
REBECCA P. SANBORN, R. N.
